

The Douglas County School System takes seriously its responsibility to provide a safe environment for students. This includes protections from harmful material found on the internet. The Children's Internet Protection Act of 2000 requires internet filtering for all students. Additionally, all Douglas County students participate in internet safety and digital citizenship lessons each year.

Douglas County uses Common Sense Media as its base curriculum for teaching internet safety and digital citizenship. Parents are encouraged to visit the Common Sense Media site to learn more about the programs available to parents as well as schools and students.
